# Information Networking Ubiquitous Services International Conference

**information delivery system through bluetooth in ...** - infrastructure. in order to provide ubiquitous services (u-service) which deliver useful information to service users without human intervention, this paper implements a proactive information delivery system using bluetooth technology. bluetooth is a lowpowered networking service that supports several protocol **proactive information delivery system in ubiquitous networks** - proactive information delivery system in ubiquitous networks . eric j. ballance, hwajung lee . department of information technology . radford university, virginia, usa {eballance, hlee3}@radford . abstract . to provide services with a concept of anywhere, anytime, anyone, anything, and any **ubiquitous computing: potentials and challenges** - **arxiv** - ubiquitous computing: potentials and challenges 1325 ubiquitous computing is thus a complementary paradigm to virtual reality. rather than reproduce and simulate the world with a computer, ubiquitous computing turns all objects in the real world into part of an information and communications system. **requirements of ew merging services in the ubiquitous ...** - requirements of new emerging services in the ubiquitous networking society based on iq analysis (research-in-progress) research topic: models akihisa kodate tsuda college / global information and telecommunication institute of waseda university **network service description and discovery in ubiquitous ...** - network service description and discovery in ubiquitous and pervasive grids qiang duan department of information science and technology the pennsylvania state university - abington **secure mobile authentication in ubiquitous networking ...** - secure mobile authentication in ubiquitous networking environments by abduallah mohammed a. almuhaideb bachelor of computer information system (kfu) master of network computing (monash university) thesis submitted in fulfilment of the requirements for the degree of doctor of philosophy (0190) faculty of information technology monash university **ubiquitous healthcare information system: toward crossing ...** - association for information systems by an authorized administrator of ais electronic library (aisel). for more information, please contact elibrary@aisnet. recommended citation zafar, humayun and sneha, sweta (2012) "ubiquitous healthcare information system: toward crossing the security chasm," **the research of ubiquitous infrastructure of museum ...** - the research of ubiquitous infrastructure of museum service applications in national palace museum chen-wo kuo, shrane-koung chou ... identification (rfid) and wireless networking technologies, npm has been implementing ubiquitous project ... ubiquitous services. the infrastructure of service environment is shown in fig.2. this is a total **meeting our csr commitments- 01 toward the realization of ...** - ubiquitous services was opened at the interfaculty initiative in information studies, the university of tokyo. the purpose of the course is to deepen knowledge about ubiquitous services through practical surveys and analysis, carry out research and development for creating such services, and thus contribute to society. **ubiquitous internet application services on sharable ...** - adaptation that will be required by ubiquitous services. in this research we pursue the novel concept of overlay networking for ubiquitous internet application services. one can think ias is an overlay network of sharable application proxies, who have computation resources to perform value-added services for the content-provider and the end-user. **special issue on "intelligent systems and services for ...** - special issue on "intelligent systems and services for ubiquitous ... on advanced information networking and applications (aina-06), distinguished achievement award, 2005, canada foundation for innovation award, 2003. dr. anind k. dey is an assistant professor in the **challenges in creating ubiquitous services with mobile ...** - ubiquitous services ▶service type: any3 vs. only3 ▶at anytime, anywhere, for anyone ▶only now, only here, only for me/us ▶ubiquitous services ▶context-aware services ▶context-aware information services ▶presence service for your friends (real-space sns) ▶push-type information service ▶context-aware health care **content and service protection for the ubiquitous tv based ...** - content and service protection for the ubiquitous tv based on network convergence shiguo lian published online: 28 july 2009 ... for other ubiquitous services. ... (dvb-h) [2], global system for mobile (gsm/gprs) [3] and home networking [4]. here, the tv program is broadcasted to mobile terminals via dvb-h, the payment and user **study on information security strategy for ubiquitous society** - ubiquitous networking, including information security-related laws to regulate the handling and use of location information and medical information. four different policy areas are distinguished for information security efforts, including infrastructure, services, users and the environment, to
